A background image showing a person climbing a mast on a sailboat. The person is wearing a blue shirt and a yellow life vest. The mast is made of wood and is surrounded by ropes and rigging. The sky is blue and the water is visible in the background.

Dear friends of the sea and maritime tradition,

This year marks 10 years since the beginning of the event "Revive the Dead Canal", when the initiators of the event from the association "Pro Torpedo" realized that it was possible to connect a large number of associations and institutions that present and valorize maritime, fishing, shipbuilding, material, and especially intangible heritage. The event was renamed FIUMARE the following year and received its marketing features and support from the City of Rijeka, Primorje-Gorski Kotar County, Rijeka Tourist Board, Kvarner Tourist Board, Rijeka Port Authority and a number of other cities, municipalities, institutions and associations. This maritime festival has successfully connected the Maritime and History Museum of the Croatian Littoral, the Natural History Museum, the City Museum of Rijeka, the University Library, the Astronomical Centre, the Croatian Ship Modellers Association and the Centre of Technical Culture, ŠRD Luben, the Sušak Club, Luka Local Board, City Library, Faculty of Maritime Studies Rijeka, Maritime School Bakar, Technical School Rijeka, Rowing Club Jadran, Centre for Industrial Heritage, as well as a number of associations from Kvarner and Istria participating in festivals and regattas of traditional boats. The programme holder of the entire event is the Coordination of Associations for the Preservation and Revitalization of the Maritime, Fishing and Shipbuilding Heritage of Kvarner and Istria – Traditional Sails of Kvarner and Istria.

This year, the FIUMARE event begins with the traditional exhibition of boats on Rijeka's Korzo, which have been renovated as part of the European project Arca Adriatica. Professional and popular lectures entitled "MaRiTime" will be held in the Marble Hall of the Maritime and History Museum, and in the University Library there will be a lecture on Franjo Ksaver Orlando, founder of the first public nautical school in Rijeka, with an accompanying exhibition of his textbooks. An exhibition of photographs entitled "Kvarner Underwater Treasure – Molluscs" will be set up in the fish market, "FIUMARE exhibition – the Past and the Present for the Future" will be displayed in the windows of the City Hall of Rijeka, and the "FIUMARE exhibition – Kvarner Festival of the Sea and Maritime Tradition" will be shown at the Karolina Riječka Pier.

The inauguration of the Lošinj lugger Nerezinac (with the Interpretation Centre for Maritime Heritage of the Island of Lošinj below deck), renovated through the Mala Barka 2 project, and the inauguration of traditional boats renovated/built through the Arca Adriatica project will be held at the Karolina Riječka Pier.

As part of the interactive maritime skills workshops to be held at Karolina Riječka Pier, interested participants will be able to tie knots, make ropes in the old-fashioned way as well as rope braids, master builders will show how to make oars and booms, and fishermen will present baiting longlines and teach the terminology of various fishing tools, the rigger will demonstrate the hemming of the sail with luff line, ship modellers will make models of ships... Plotting the ship's position, using sea charts and nautical instruments: the sextant, bearing plate, compass, dividers, navigational triangles will be taught at the nautical workshop. The students of the Maritime and Technical Schools will attend a workshop on 3D modelling and printing of a traditional boat. The youngest ones can attend a series of educational workshops at the Karolina Riječka Pier and at the Lošinj lugger "Nerezinac" entitled: "Riba ribi grize rep", "Ship ahoy! Run for your life!" and "From prayer to the sea to sun salutation", and in the Children's House "Siege of the Children's House: Pirates attack", "Swim against the current" and "Ida and the flying whale". A "Treasure Hunt" will be organized along the shores of the Dead Canal. The Astronomical Centre will hold a rich programme in the planetarium called "The Sea and the Stars", as well as "Astronomical Evening on the Quay". The Luka Local Board and the Sports Fishing Association "Luben" will organize a fishing competition with the presentation and weighing of fish catches.

Demonstrational maritime and sports rowing, a regatta of traditional guc, pasara, gajeta, leut and batana boats equipped with traditional sails (lug sail, Lateen sail, gaff sail, dipping lug sail) will be held in the waters of the city of Rijeka. After the ball of sails and lights, the historical event "Karolina Riječka saves Rijeka" will be staged followed by fireworks from the sea, and the coastal atmosphere will be complemented by music.

The Eco-Ethnic Fair of Autochthonous Kvarner Products will be held in Verdijeva Street, next to the theatre and the nearby restaurants will offer dishes based on autochthonous ingredients from Kvarner.

We would like to invite all friends of the sea, traditional boats, sails and seamanship to join us and enjoy with us in this attractive event, organized this year as part of the Nautical Fair and within the European project Arca Adriatica – protection, promotion and tourist valorization of Adriatic maritime heritage. We should emphasize that the festival has been recognized internationally and FIUMARE 2021 has been included in the programme of the European Maritime Day 2021.

Wednesday, 22 September

- 9 a.m. – 8 p.m. **KORZO (in the windows of the Rijeka City hall)**
