**Krčka jedra**  
20 godina tradicijskog jedrenja

## 20. KRČKA JEDRA - 20 godina tradicijskog jedrenja

**Regata tradicijskih povila pod nazivom Krčka jedra organizira se u gradu Krku od 1998. godine i jedna je od najstarijih takve vrste na našoj obali.** Radi se o regati tradicijskih plovila kojoj je cilj očuvanje i prezentacija bogate maritimne baštine otoka Krka i šire. Za vrijeme događanja pripremljen je i edukativni program, izložba fotografija, te radionice pomorskih vještina.

Pred dvije godine program Krčkih jedara dopunjen je novom atrakcijom, „Noćnim plesom barki“, zamišljenim kao prome-nadnim paradnim jedrenjem tradicijskih barki pod svjetlima reflektora uz prigodni glazbeni program te recital o moru. Ove godine je za glazbeni program zadužen Stašić orkestar koji će se nalaziti na jednom od brodova, te će uz birana djela klasične glazbe doprinijeti jedinstvenosti atmosfere. Program dodatno oplemenjuje vatromet.

Regatno jedrenje održava se tradicionalno na blagdan Vele Gospe, 15.8. a start je točno u podne, na dvanaesti otkucaj zvo-na s krčkog zvonika. Za vrijeme događanja na ribarskom mulu u krčkoj luci dostupan je gastronomski program na bazi morskih plodova, a u večernjim satima i zabavno muzički program.

## 20<sup>th</sup> KRK SAILS - 20 years of traditional sailing

**The traditional Krk Sails sailing regatta has been held in the town of Krk since 1998 and is the oldest such race on the Cro-atian coast.** This regatta features racing in traditional sailbo-ats in order to preserve and showcase the abundant maritime heritage of the island of Krk and its surroundings. The event also includes an educational programme, a photography exhib-ition and seamanship workshops.

Two years ago, an appealing new event called “The Night Boat Dance” was added to the Krk Sails programme with the goal of showcasing traditional sailboats as they parade along the promenade under the spotlights and also included a musical performance and a recital about the sea. This year, music will be provided by the Stašić Orchestra, which will create a unique atmosphere on one of the boats with their renditions of sele-cted pieces of classical music. The programme will be further enriched with fireworks.

The sailing regatta will traditionally take place on August 15th, the Feast Day of the Assumption of Mary, and will start at high noon after the bells of Krk Cathedral have chimed for the twelfth time. During the event, a culinary programme centred around seafood will also be held on the fishing quay in Krk harbour, as well as a musical and entertainment programme that evening.
